One of the Victims Was a Little Girl. S veral Persons Were Injured. Governor Orders the State Troops to the Scene.

Philadelphia, Sept. 22 .- The tragedy that has been looked for since the coal miners strike was inaugurated came doah late yesterday afternoon.

A posse hurriedly gathered together by Sheriff Toole of Schuylkill county to meet an emergency, was forced to fire on a mob that was threatening workmen ously wounded.

The killed are: Mike Yuckavage, shot in the eye. A little girl, name unknown, shot in the back of the neck.

The wounded, so far as can be learned: Edward Coyle, aged 50, bullet wound near the heart.

Michael Scanlan, shot in arm. Anthony Skarnizske, shot in the left

John Wusdickey, aged 40, shot in the hand.

the shoulder.

Mike Sazitska, shot in shoulder. side, serious.

Among those who were injured by the rioters were the following:

George Bedding, ugly gash on right forehead, caused by a brick.

Robert Edwards, aged 64, hit with orders are received. Charles Rawland, aged 35, injured on

the neck and head by stones. Sheriff Toole lost no time in calling on the commander of the national guard of Pennsylvania to send troops to aid him in keeping the peace. After con-

to the turbulent region. Shenandoah's trouble was precipitated by the closing of six collieries through the efforts of the strike leaders. More will close as a voluntary act, it is said, on the voluntary part of the Reading company. This is done at the request of Sheriff Toole, who hopes in this manner to avoid further rioting. The outlook, however, is dubious, as the foreign-

ers are in and ugly mood. Elsewhere in the strike region everything is quiet, although preparations are making for an outbreak in the Hazleton district and armed sheriff's deputies are much in evidence there.

The Reading company has about discontinued the sale of coal for future deliveries and developments almost cerduction everywhere in the anthracite field, temporarily at least.

TROOPS CALLED OUT.

Governor Stone Orders Soldiers to the Riotous Scenes.

Harrisburg, Sept. 22. - Three regiments of infantry, a battery and a troop of cavalry were ordered out at midnight by Governor Stone to assist Sheriff Toole in maintaining order in the Schuyl- off the platform as the train was pullkill mining region. This action was taken after a conference between the governor, Adjutant General Stewart and General Gobin on the urgent solicitation of the sheriff, the borough council of Shenandoah and many prominent residents of that locality. General Gobin has been placed in command of the provisional brigade and started from here last night on a special train for Shenandoah. He will establish headquarters there and and expects to have 2500 troops by night.

General Gobin is the senior brigadier of the division and commanded the brigade which was ordered to Hazleton after the Latimer shooting in 1897.

Governor Stone received a telegram from Sheriff Toole advising that he was unable to cope with the mob and that boarded it at this place the presence of troops was necessary to the protection of life and property in the community.

Now that troops are in the field uncertainty is growing among the miners here as to their future.

From Forest City, where the Hillside Coal and Iron company has two big mines, news comes that many men are dissatisfied with the present status of TWO PERSONS SLAIN. the strike and have announced their intention to go back to work Monday.

The Delaware, Lackawanna and Western company's men too are showing restlessness and a break may come in their ranks very soon, as the company, through General Superintendent Loomis, announces that as soon as the men get back to work their demands as company employees exclusively will be taken up and considered.

The Pennsylvania Coal company suddenly and unexpectedly at Shenan- stands in a similar position and other companies are ready to do the same.

The position of the companies and their decided annoucement that they will not deal with their employees through the United Mine Workers organization, together with the bringing on their way home under escort. A of military into service, has set the man and little girl were instantly killed strikers hereabouts to thinking and they and seven others fell more or less seri- realize the battle is apparently going against them.

STRIKE REGION QUIET.

Presence of Troops Had a Sobering Effect on the Strikers.

Philadelphia, Sept. 22.—All is reported quiet in the strike region. The outbreak at Shenandoah late Friday afternoon, followed by the sending of nearly 3000 troops there, put an effectual stop to rioting and peace and stillness prevails. How long this condition will last is a problem. The presence of soldiers Peter Stalmocovich, aged 28, shot in in the field has undoubtedly had a sobering effect on the turbulent spirits of those strikers who believe in violence as Anthony Axalugee, shot in the left a means of accomplishing their pur-

In addition to the troops in the field 1000 more are in and around Scranton, Wilkesbarre and Philadelphia standing ready to start for the scene the instant

There are signs of wavering in the strikers' ranks, especially in the Scranton region, and it is believed unless there is an early settlement of the strike the men will begin returning to work.

Troops Reach Shenandoah.

Shenandoah, Pa., Sept. 22.—Troops sultation the state authorities at Harris- began arriving here at 6 o'clock this burg decided at midnight to send troops morning and upwards of 2500 soldiers are now here ready for any emergency. Saloons are all closed and martial law prevails. The collieries are idle also, they having been closed by the Reading company at the request of Sheriff Toole in order to avert trouble.

ONE LONE ROBBER.

Robs Passengers in Two Pullmans and Makes His Escape.

Spokane, Sept. 22.-A singlehanded masked robber held up the west bound passenger train on the Northern Pacific road at 1 o'clock this morning \$500 in cash, several watches and quantity of jewelry.

After the train left Athol he gained the rear end of the Pullman sleeper and tainly mean the shutting off of coal pro- at once began operations. From bunk to bunk he worked waking up sleepers and demanding their valuables while covering them with a revolver.

After cleaning up both Pullmans the robber entered the tourist car. Here the occupants began to scream and attracted the attention of the conductor who was in the forward end of the car. As he came down the aisle the robber backen out of the car door and stepped ing into Rathdrum and escaped.

The conductor fired twice at the robber, who returned the fire and the conductor beat a hasty retreat into the car.

EXPRESS CAR ROBBED.

Four Men Do the Work and Only Get a Small Amount.

Lincoln, Neb., Sept. 22.-Four masked men held up an express car on the St. Louis-Portland train of the Burlington road early this morning at Woodlawn, a few miles northwest of here.

The robbers secured a very small sum from the local safe. After going through the safe the men left the express car and disappeared.

The train left Lincoln shortly after midnight and it is supposed the robbers

and Russians Too Friendly to Suit the Other Powers.

London, Sept. 22.—It seems to be generally believed throughout Europe that Germany purposely proposed her demand that the antiforeign leaders should be surrendered befor anegotiations were commenced with a w of delaying any general acceptance of r proposal until von Waldersee Field Marshal Cor should arrive at Pekin.

A dispatch to the Daliy Telegraph from Washington asserts that the United States government has politely declined to agree to Germany's proposal on this very ground. In any event with Count von Waldersee journeying northward and Li Hung Chang conducting negotiations from Tien Tsin, matters must soon reach a crisis.

The manner of Earl Li's reception seems to confirm the suspicions existing in Shanghai regarding his close understanding with Russia. About 4000 Russian troops and all the principal Russian officers met him at Chung Liang Chen, half way to Tien Tsin. A long conference was held at which no representatives of any other power was present. This remarkable friendship exists at a time when two continents are ringing with the story of massacres by the Russians in Amur.

ITALIANS STOPPED.

They Were Fleeing from Mexico With Yellow Fever Among Them.

El Paso, Tex., Sept. 21.-Dr. Alexander, United States quarantine officer here, received notice from officials of the Mexican Central Railway company a few days ago that over 1000 Italian immigrants were en route here from Vera Cruz, Mex., and that twenty of them had died of yellow fever since leaving Vera Cruz. The story was confirmed Friday by the arrival of about thirty of the colony in El Paso. They were arrested by the immigration authorities and taken back to Juarez, Mex. Those who have arrived tell a piteous story of there experience at Vera Cruz.

About 50 Chinamen, who were a part of the colony of nearly a 1000 discharged at Tampico by the Mexican Central railroad, are in Juarez seeking admission into the United States, and the situation now in that city is becoming alarming. The citizens there are preparing an appeal to President Diaz to rid them of this beggar pauper class.

Idleness Regarded as a Crime. Corsicana, Tex., Sept. 22.-Under orders issued by City Marshal Cole several negroes were arrested in Corsicana on charges of vagrancy because they refused to go to work in the cottonfields, the city being full of planters offering big wages for cottonpickers. One of these cases was tried in the corporation for it in court. And then the wo-The record of fifteen flood storms court and the defendant was fined \$1 lurnig the century now closing gives and costs, the total being \$12.70. Failcounty farm. Will Open Old Feud.

Frankfort, Sept. 22.—Representatives or both sides in the Howard case admit that a good deal of bad blood is being engendered between the mountain friends and enemies of Howard as a result of the trial. Those who know the relations of the two factions say it is nearly certain to result in reopening the feud. In this connection it is noted that killings have been recorded to the credit of various witnesses who have testified in the Howard case, not counting shootings and suspected cases of which there were no prosecution.

Plague in Frisco.

El Paso, Tex., Sept. 22.—There is no question that bubonic plague exists in San Francisco was the report of Dr. W. N. Vilas, president of the El Paso board of health to the chamber of commerce. He had just returned from San Francisco, where he went at the direction of the chamber of commerce here to investigate the bubonic plague condition. He reported further that he did not think the quarantine was effective and on that ground the chamber of commerce decided to continue the fight against the quarantine until it was raised.

Verdict for the Boy Violinist.

Kokomo, Ind., Sept. 29 .- Arthur Mc-Beth, the boy violinist, who has given many concerts throughout the state, and who is a member of a church choir here, got a \$400 verdict against Sheriff Harness for arrest without warrant and unlawful detention. The lad was suspected of stealing a watch, but established his innocence. He then sued the sheriff, accusing him of unlawful threats of imprisonment to extort a confession. The sheriff will appeal the case.

Fatal Hotel Fire.

Helena, Mont., Sept. 22. - Weston Riley lost his life in a fire that destroyed \$15,000 worth of property at Belgrade, a little town on the Northern Pacific, 90 miles east of Helena. The fire originated in the Belgrade hotel. Several store buildings were burned. Riley was a lodger in the hotel.

VALUE IS UNEQUALED

The Total Amount the Crop Will Bring Is Put Down at \$475,000,000. Next Largest Was 1865-66. Railroads Are Building.

Baltimore, Sept. 22.—Bankers in the country towns of the south come in close contact with their local agricultural, industrial and business interests, and are in a position, therefore, to judge accurately of those conditions and to reflect the sentiment of their respective communities. Recognizing that fact and believing that just at present conditions are most interesting in the south, The Manufacturers' Record recently sent a letter to a bank in every county seat in the south asking for information as to present facts and as to the outlook for fall and winter.

In reply many letters have been received and are published in this week's issue. The majority of them, coming from the cottongrowing sections, point out that while the crop is short, the very high prices now prevailing will more than offset the small crop and give to the farmers greater profits on cotton than for many years. Some of the letters from other portions of the south are less hopeful by reason of the small corn crop due to the severe drouth.

In connection with the cotton situation, it seems probable that the crop will be at least 9,000,000 bales, and possibly more, though some able experts anticipate that the yield will be considerably less than this. Even should the crop reach 9,500,000 bales, the great shortage in the world's supply will probably maintain prices at not much below the present level of about 10 cents a pound, or, roughly speaking, say \$50 a bale, and if it should fall below this figure prices ought to correspondingly advance.

On the basis of 9,500,000 bales, this would give a valuation of \$475,000,000, which would be the most valuable cotton crop raised in this country. That of 1865-66, raised just after the close of the war, when cotton was commanding an average of nearly \$200 a bale and when the crop was 2,200,000 bales, yielded \$432,000,000, and the next was the crop 1890-91 of 8,600,000 bales, which was worth \$430,000,000.

The average value of the cotton crop of the six years from 1893-94 to 1898-99 was \$300,000,000, the lowest in that period being \$282,000,000 for the crop of 1898-99, which was 11,284,000 bales. Last year's crop of 9,400,000 bales yielded \$363,000,000, or \$81,000,000 more than the preceding crop. On the basis of a possible valuation of \$475,000,000 for this year's crop, the difference to the south as compared with the crop of 1898-99 would be over \$190,000,000.

Taking last year's crop and this crop together, and the total valuation on the basis of an estimate of \$475,000,000 for this year's will be \$838,000,000 for the two years, against \$602,000,000 for the two preceding years, showing a difference in favor of the cotton planters of the south of \$236,000,000 for two small crops against the two preceding crops, each of which exceeded 11,000,000 bales.

It is, of course, possible that the yield will not only fall below 9,500,000, but if this should be true, the price would probably advance to a point sufficient to make up the difference. But even with 9,000,000 bales at the present selling price of \$50 a bale, the value would be yesterday and appointed Mr. D. C. \$450,000,000, which would still be the DcMaret express agent for the com- most valuable cotton crop which the south ever produced.

With a probable valuation of \$450,000, 000 this year, and possibly a still higher value, the south will be in better financial shape than for many years.

In 1890-91 a crop of 8,650,060 bales, the average price per pound of middling uplands in New York for the year being 9.03 cents, brought \$430,000,000, and from this figure there was a capid decline to \$284,000,000 in 1892-93.

One of the indications of changed conditions in the south is activity in rail-road building. While this is general in nearly all southern states, it is particuduring this year.

In Texas the Southern Pacific has let several contracts representing more than 100 mileage, and the International and Great Northern company, the Gulf, Colorado and Santa Fe, the Missouri, Kansas and Texas, the Cane Belt and the Houston and Texas Central railroads have extensions planned.

In Alabama the Louisville and Nash-

ville, the Southern, the Central of Georgia, the Alabama and Tombigbee, the Chattahoochee Valley, the Tennessee and Alabama Mineral and the Carrollton Short Line roads are making extensive improvements.

The feature of the Southern iron mar-Benson, John Jones, Dave Thompson ket at present is the export demand. and others were here from Bethel With reasonable rates and available ocean room the Birmingham district would be for the present independent of the domestic trade.
